**Follow Up Flag:** Follow up  
**Flag Status:** Completed

Hi Brad,

I too, thought that the conversation was helpful!

Here are the citation I was referring to during our discussion.

Federal Effluent Limitations Guidelines (ELG's) pertaining to Iron Ores,  
40 CFR 440 Subpart A, with definitions at Subpart L <http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&SID=22d69badd6068c2ab8a3a34d7d151bf9&rqn=div6&view=text&node=40:31.0.1.1.16.12&idno=40>

### Industrial stormwater:

122.26(b)(14): storm water discharge associated with industrial activity means... includes but not limited to... immediate access roads..

122.26(b)(14)(iii) (list of types of facilities engaging in industrial activity): Facilities classified as SIC 10 through 14...

SIC 10 is Iron Ores. 1081, part of 10, describes "Support Activities for Metal Mining" and that description includes exploration.

**Subject:** Conference call to discuss the Gogebic Taconite project

Hi Krista,

Thanks for the discussion today on the Gogebic Taconite (GTAC) project in Northern Wisconsin. It was very helpful to me to talk through this with you.

I looked at calendars and it appears that the follow dates and time ranges should work for a conference call:

Wednesday July 31<sup>st</sup> 8:00-10:00

Monday August 5, 10:00-1:00

Monday August 12, anytime in the afternoon

See if any of these would work for your folks and if not, I will carve out some other times. Otherwise please book a date and time and we will lock it in on our end.

I'll send something down to you on the overall mine site shortly.

Thanks again,

 *Bradley A. Johnson*
